Debate in Congress on the Freedmen's Bureau and Negro Suffrage.

WASHINGTON, Jan. 23.

SENATE.—The bill to enlarge the powers of the Freedmen's Bureau was called up.

Mr. Saulsbury said—The bill under consideration proposes to enlarge the powers of the Freedmen's Bureau. It does enlarge them wonderfully. I think I can demonstrate mathematically that this bill gives to the President of the United States, and to those entrusted with the discharge of these duties, the power of spending at least two hundred and fifty millions of dollars. It cannot be the intention of the friends of the bill that such enormous expenditure shall be incurred; but we are to look at what may be the result of this Bureau going into operation, to ascertain what the expense may be, and we are not to consider that those entrusted with the discharge of those duties will not incur this expense.

Mr. Saulsbury then reviewed the different sections of the bill, alleging that it gave patronage to a dangerous extent to the President, as well as incurred immense expense upon the country. It provided for an agent of the Bureau in every county. There were sixteen hundred and seventy-eight counties in the United States. In every one of these an agent at fifteen hundred dollars a year would come to two millions five hundred and fourteen thousand dollars. Seventy two clerks of Assistant Commissioners at twelve hundred dollars a year, would cost eighty-six thousand four hundred dollars, and three thousand two hundred and forty-two clerks for agents, in addition to all this, making a total for officers alone of seven millions three hundred and fourteen thousand two hundred dollars.

He reviewed the course of the Republican party since it came into power, contrasting the present condition of the country with its condition before the election of Mr. Lincoln. He believed legislation of the character now under consideration would result in the election of the Democratic party and Democratic majorities in both Houses of Congress. All he would say to the Democratic party was for it to stand firmly by its principles.

Mr. Fessenden, of Maine, said the Senator from Delaware had said that a continuance in the kind of measures now under consideration would very soon put the Democratic party in possession of both Halls of Congress. He did not know that he should hesitate to do what he believed to be right and proper, even in view of such a calamity as the accession of the Democratic party.

If he really believed that such a consummation was really to come about, he did not know but he might hesitate a little, dreading the evil so much, but he did not apprehend any such result was so near at hand as that it ought to influence his action in measures that he thought proper and just. Let us look at the condition in which we find ourselves at the close of a great war, brought upon us by the Democratic party. The great mass of the Democratic party, the leading portion of it, was the Southern portion. I do not say that all the Democrats were in favor of bringing on the war. I acknowledge that a very great portion of them have proved themselves to be good and true patriots—as good and true friends of the country as any set of men—but I do say that the support which the Democratic party gave to the South in all its measures of aggression was a degree of encouragement without which I do not believe the war would have occurred.

That has been my opinion always, and I have no hesitation in expressing it now. If the war was brought upon us by the South itself, and a result has followed which may be grievous to them for a series of years, it is not for them to complain. They invited the war, and drove us into the necessity of prosecuting it, and if the result is disastrous, and continues to be oppressive, so far as the necessary measures are concerned, they have themselves to thank for it, and cannot complain of the Congress of the United States. If the Democratic party, as a party, in its previous course is responsible in any degree for the condition of things that exist, it is not for that party, as a party, to complain of the measures which may be found necessary at present.

They also have taken the consequences of their action to a certain extent, and I think they ought to be silent upon everything which is a natural and inevitable result of the consequence for which they are both responsible.

Mr. McDougall, of California, objected to the arraignment of the Democratic party. The Democrats, he said, have been maintainers of the Union from the commencement of the troubles to the last. They had maintained the Union with their blood and treasure.

Mr. Fessenden said he made a distinction between the rank and file of the Democratic party and the leaders who acted in advance of the party. Many Democrats had shown themselves lovers of the country. The great mass of the Democratic party fought bravely to support the Government throughout in a manly and patriotic way. We hear a great many threats of disruption of the Union party, of the overthrow we are about to experience, of the good time coming for those who are not now having the most agreeable time in the world. Perhaps it may come, it is not for me to say that it will not, perhaps the great party which has control of the country at the present time will commit such errors that the people will get tired of it and wish for a change. Nothing is more natural. Possession of power for a long time is apt to make men careless if not corrupt, and it is a good thing in a republic that the people can change and do change their rulers, but let me say that I hope the party in power will continue there long enough to set things right, so great a capacity for evil as there would have been if we had not got into power. We will endeavor to strengthen the country if we cannot strengthen ourselves. As good patriots we will do whatever we can for the public good while we remain in power, and will not be frightened by the threats that we hear made.

Mr. Fessenden then spoke of the bill under consideration, and in conclusion referred to the subject of reconstruction. He had noticed that some gentlemen were a little anxious to discuss this matter before they had the benefit of the facts that the Special Committee might be able to state, and the conclusions to which they might finally come. That was a matter for every gentleman to judge by himself, and for himself, but there was one thing upon which he wished to say a word. Senators have, in the course of debate, chosen to talk a great deal about the policy of the President and the policy of Congress.

I cannot understand why gentlemen of the other side of the House, and gentlemen of the same way of thinking on this side of the House, should be so very anxious to get up the idea that there is a collision of opinions between the President and Congress. We have all sorts of rumors, in which the wish is father to the thought. One day we hear that such a Cabinet Minister is to be turned out or to resign, and this day something else is being done; that the President had said this or that; that he means to ostracise people who will not support his policy, &c. All such rumors are without the slightest foundation, except the wish of those who invent them.

Mr. Fessenden said he would say to all who wished such a state of affairs to come about, not to flatter themselves with any such idea. He had not as yet seen the slightest indication, and he did not expect to see any. Even supposing there was a difference of opinion, to a certain extent, as to the time and manner of accomplishing a great work, which all desire to see accomplished at the earliest possible day, did it follow, because of this difference of opinion, that there was to be the collision that was talked about? He knew very well that men hung around the White House and endeavored to persuade the President that those who ought to be his best friends are not doing their best to sustain him; but they paid the President a poor compliment when they intimated that he was not keeping watch on these matters himself.

There is no collision, said Mr. Fessenden, I say it for much or little for the benefit of the country. The President has done nothing that his friends complain of, and his friends have done nothing that he can complain of. A Commander-in-Chief of the army he had appointed Provisional Governors in the South, but he had not attempted to do anything which, under the Constitution, belonged to Congress to do. In conclusion, Mr. Fessenden said he desired a full restoration of the Union as speedily as possible. He was opposed to the imposition upon any people designed to form part of the Government, of degrading conditions of any kind. He would not degrade the South in any way.

Dissolution of Copartnership.

THE firm heretofore known as that of Baker, Cowper & Co has this day been dissolved by mutual consent. The duties devolving on one of the partners as Cashier of the Bank of Cape Fear, and the removal of the other to Norfolk (his residence before the war) for the purpose of practising law, have caused this dissolution. The business will be continued by Mr. Pulaski Cowper and Mr James A. Moore, late Teller of the Bank of Cape Fear, under the name and style of Cowper & Moore, who will settle up the business of Baker, Cowper & Co.

CARGO OF 275 TONS HAMPSHIRE COAL DAily expected rom Baltimore.

This coal is bituminous, and perhaps the best coal known for steam purposes, whether for locomotives or steamboats. It is used almost exclusively by Northern railroad companies and the Cunard Steamers. It is also represented as the best blacksmith's coal in the country and is very extensively used in iron works for forging, etc. It is soft and friable, the fine coal being as good for use as the lump.

The attention of railroad companies, iron works and machine shops, is particularly invited to the importance of a trial of this coal.

The undersigned having been appointed agent for the Hampshire and Baltimore Coal Company, will be prepared to furnish any quantity required, at a reasonable price.

Distilling Grain Again.

The object of those who advocate the suppression of the distillation of grain at the present time, if we understand them, is simply for the purpose of preserving the grain for food for the people. It is understood that in many of the Southern States there is an alarming scarcity of food. It is anticipated that in Alabama, without material aid from abroad, many of her people, in a short time, must be suffering.

In this State, the impression has prevailed, that there was little or no surplus of corn made, perhaps enough to get along comfortably. Hence the idea, that the consumption of grain by distillation, would not only increase the price of corn, but that it would produce actual want among the people.

Hence, the necessity for replenishing the State Treasury by taxing distilleries, and thus license what might prove a positive and pernicious evil, does not enter into the calculation.

The University.

The defence and appeal of our correspondent "Roanoke" in behalf of the University will be read with interest. We, however, were not aware before, that the character of the University was suffering to any great extent in public estimation, and doubt the propriety of giving vent to some portions of the article; but coming as it does from a devoted friend of the institution and of its professors, and presuming that the correspondent knows more of the matter than we do, we cheerfully insert it. Strange, indeed, that an institution which has enjoyed so long and so deservedly a national reputation, should at this day find objectors among the people of its own State.

Mrs. Stonewall Jackson.

It is highly gratifying to witness the interest that is being taken throughout the South, in the welfare of the widow of the late Gen. Jackson. The death of her illustrious husband and the ravages of the war, left her without the means of comfortable support. This being ascertained, there has been a simultaneous movement at many points to relieve her condition.

We are surprised that no general effort has been made in this city to aid in this matter.—No people entertained a higher admiration for his brilliant achievements and the high moral qualities of Gen. Jackson, than the people of this city. In other places, concerts, fairs, &c., have been held by ladies and gentlemen to promote the benevolent object, and why not in Raleigh? We have deferred noticing this matter, hoping that a movement would be inaugurated without waiting for a suggestion. We trust Raleigh will not be behind in every good work.

The Public Schools.

We refer the reader to a well written article in reference to the bill before the Legislature, for the benefit of the Public Schools. We hope no one entertains the idea of either giving them up or allowing them to languish. We have not had sufficient leisure to give any attention to the important suggestions of the Superintendent. The article in our columns, however, some what explains the bill.

The Legislature will, of course, give it a close and careful investigation.

Rumors.

We are without any reliable information in regard to the rumors from Goldsboro, except what is contained in the brief article from the Goldsboro, *News*. The suggestion of the *News*, urging the laying before Gen. Ruger a correct and impartial account of matters there, is a good one. The chief of the Department should be fully advised of all matters deserving his attention.

Greensboro' N. C.

This is becoming one of the most flourishing towns in the interior of the State. We hear that rents are as high there as here, and that is saying a good deal; and there is quite an opening in both places for those who have the means to invest them in the erection of houses.

By the way Brenizer, Kellogg, & Co., also advertise in our columns, and are among our most enterprising and accommodating brokers, and we commend them to all having business in their line.

THE PROJECTED ESCAPE OF JEFFERSON DAVIS.—A great fuss has been created and a great deal of unnecessary suffering occasioned by the reported projected attempt to help Jeff. Davis to escape from Fortress Monroe. It would have been much better for the government to have winked at it, if such a thing was ever contemplated. Congress would not then be in its present unfortunate quandary about how Davis shall be tried.—*New York Herald, 24th.*

No sensible man, we presume, ever believed that any such attempt was ever contemplated by Mr. Davis' friends. Madness—derangement alone could prompt any man to attempt such a thing. We have no idea that Mr. Davis himself would countenance such a movement. He is charged before the country as a traitor. He is anxious for a trial before a proper tribunal, and would not shirk the investigation. At least, that is our opinion of the man.

For the Sentinel.

A Bill for the benefit of the Public Schools of the State.

This is the title of a bill recently introduced into the House by Mr. Jenkins, of Granville, Chairman of the Committee on Education. It was drawn, we understand, by the Superintendent of Public Schools, and every clause has been long and thoroughly considered. The part in relation to the machinery of the schools, we do not now intend to discuss, but we would offer a few suggestions on those sections which propose to provide means for their support. On one point every true son of North Carolina agrees, and that is that the schools *must* not be stopped, if it is possible to prevent it. It is also well understood that the people cannot pay taxes for their support; and the income of the fund that is left will amount to little.

Now it is very clear to our mind that if this fund, by using the principal, can be made to keep up the schools for four or five years, it should be done; and in that time we may have a new fund from the sale of swamp lands, from bank stock redeemed by the new banking operations proposed, &c., while the people will be able to pay taxes.

There are but three ways in which the stocks on hand can be made available, to wit: 1st. To sell them for currency and use that. 2nd. To issue certificates of indebtedness for 3 or 4 years, to be redeemed by those stocks when they appreciate in value. 3rd. To convert the stocks into national banking capital. The first plan is the most objectionable of all. Against the 2nd it might be urged that certificates, or even Treasury notes leaving 3 or 4 years to run, would depreciate, and would be discredited by the brokers. The only difficulty in the way of the 3rd plan is, that our stocks would not buy near the nominal value in national bonds. It seems to us that the very cautious wording of the bill before us gets over every difficulty. A large discretion is properly vested in the Literary Board; and if that body finds that the sale of its stocks will not realize a banking capital that will support the schools three or four years, it is allowed to issue certificates of indebtedness to pay their expenses for one year. Those certificates, certain to be redeemed within 18 months, bearing one *per cent* interest, and receivable for taxes will not depreciate; and thus the national bank will be enabled the first year to make a profit on *all* its capital. It seems to us that this plan commends itself to the favor of every friend of the public schools; and as the Governor is the President of the Literary Board, and is distinguished for his honesty, caution and financial skill, we can see no possible reason for withholding the discretionary power asked for.—If he and the board find they cannot use it to advantage, there is an end of it: if they can a great and glorious work will be accomplished.

No possible harm can come of the trial; an infinite amount of good may.

We observe that the bill authorizes the funding of coupons due on State bonds, before sold. This is a good idea, as bonds sell for more than coupons, and it relieves the State Treasury of a debt due. We would like to say a good deal in regard to the swamp lands, but we have not time. There are the best reasons for conferring on the Literary Board the powers asked for, and we will only mention one important fact.

The State Superintendent has in his possession a letter from the most influential editor in New York, proposing that the State subscribe the lands, at a fixed price, as part capital in a company to drain and improve them, individuals to subscribe money, and he offers to go largely into it. We think we can clearly see daylight in our financial matters. The admirable suggestions of the Governor in regard to National Banks, will, if carried out, furnish the people with money, and ultimately save much of the Literary Fund now considered lost. The bill before us will increase our circulation, enable the people to educate their children, and may add to the School Fund, and greatly enrich the State. We invoke to this subject the careful attention of all our statesmen, as one well worthy of their most anxious consideration. G.

The Tuscumbia *North Alabamian* says: "First class hands, without incumbrance, are hiring for two hundred dollars per year, with rations, quarters and wood, the negro to clothe himself and pay his doctor's bills. The negroes were very quiet during the holidays. Unless labor is brought from abroad, three-fourths of the farming land in this valley will remain uncultivated this year."

The University.

HALIFAX, N. C. Jan. 20, 1866.

TO THE EDITORS OF THE SENTINEL:

SIRS:—I have noticed with pain, and have heard with deep regret, that in some circles, and in certain communities in our State, there exists a disposition unfriendly to our University, and depreciative of the gentlemen at the head of it. As usual, in all cases where people are prone to point a fault, and hesitate dislike," rather than make open and above-board statements that may be investigated and rebutted. I have found it exceedingly difficult to apprehend the sources, or to point out the authority for these floating insinuations. Comparatively few people who are in the, habit of indulging in disparaging remarks on public men, can be made to stand up to what they assert in private, and the consequence is, that ill-natured remarks are made, prejudices are planted, but nobody is responsible for them.

The rule is a good one, in general, to let all such things slide; real merit, in the long run will hold its own. But, sir, we are now in a transition state. Old things are passing away, and a new order of things will soon be inaugurated. Revolutions are apt to leave but few landmarks behind them, and as I consider the removal of certain of our old landmarks would be a more serious calamity than any that has yet befallen us, I desire to warn those who are undermining and tugging at such, to beware. When great institutions are subverted, they drag more than themselves down to ruin.

Our State University held its head above water all through the late storm. The subsiding waves leave her still standing, but with deeply impaired foundations, and without help from some quarter, she must totter to her fall. What must we think of those North Carolinians who would assist at that overthow—or even look on with indifference.

I love North Carolina. I reverence her character in some respects, but I am obliged to say, that there are some traits exhibited, (or rather I should say, there is the lack of certain traits,) contemplating which, I have always declared I would not wish my sons to settle here. You know it has often been said, in a jocular way, that had yet a sting in it, that "North Carolina was a good State to move from." I say, again, nobody respects and admires more than I do, her solid conservatism, her good sense, her sturdy honesty, but I do wish she had a little more of the unbought grace of life, a little more chivalric fire, the high and free and bold bearing, the open hand and the generous impulses, which, though they may often lead their possessors to rash and imprudent actions, yet seldom inspire mean ones. There certainly is a want of generosity, of large-handedness, so to speak, which is in unfavorable contrast to the action of her sister States in certain respects; which dwarfs enterprise in business, and checks the cultivation and growth of Letters.

North Carolina owes a debt of gratitude to her University. Hardly a man of public usefulness, or of distinction in the learned professions in the State, but has been educated there, and those who never shared in her instructions directly, have indirectly benefitted by her influence. It has always been a thoroughly *respectable* Institution. I use the word in its largest sense. No false lights were ever hung out there; no vagaries in Science or Religion have ever been propagated thence. The Faculty have been a set of hard-working *teachers*, who endeavored honestly to do their duty by the boys and by the State. They have never been handsomely paid, have always worked conscientiously, have neither puffed themselves or got other people to do it, and have been contented with an approving conscience, and a very slender share of this world's goods,—as I believe has ever been the lot of most true scholars.—There are men in that Faculty of whose attainments and abilities any Institution on the continent might be proud, who, if they were attached to Universities of Virginia and Alabama, would have been honored and puffed and petted, from one end of the State to the other. North Carolina, careful old soul! has been satisfied that they did their duty as per contract, praise or pudding were not nominated in the bond; and she was not bound to furnish extras.

The influence exerted by the University of our State, I repeat, has been thoroughly good. Sound to the core in Science and in Ethics liberal, just, and firm in her discipline, beneficent in her policy, and economical in her scale of expenditures, there really has been nothing left to be desired by her friends, unless perhaps it might be that her Professors had diffused their learning more widely through the Press, and had added to their solid reputation as scholars and teachers, the more brilliant and attractive one of successful authorship. I have myself often wished that men so capable had given the world the fruit of their years of study and experience, in the shape at least of text books. Such things give name and add lustre to a Literary Institution. It may safely be conjectured, however, that they lacked time and means. Men who hear from 12 to 15 recitations a week, and have to study half the night, besides, to keep up with the progress of the age, in their several departments, do not usually write much for the Press. And where there are families to bring up and educate on salaries of $1800, or less, the income forms too tight a fit over the expenses, to allow of embarking on the uncertain sea of speculation in book-making. North Carolina went in too much for making money by her University, and where is it now?

As to the President, Gov. Swain; well, he ought to be pretty well known to North Carolinians by this time. I don't suppose that any body is prepared to deny that he is a good man, an honest man, and a *very long-headed one*. In some matters of policy and conduct, in fact, a *sage*. I remember hearing a distinguished man say years ago, that he knew no man, whose judgment in some affairs he considered more nearly infallible than Gov. Swain's—adding that he was a better judge in deciding for his friend's affairs than for his own.

His management of his own affairs—his administration in his own family, I conceive to be nobody's business but his; in no way amenable to public criticism, nor connected with his action as a public man. As to the University, his administration must be conceded by even his sharpest critics to have been eminently successful, and it would be a sad day for Chapel Hill, if he should ever be induced to leave it. Men of Gov. Swain's extensive knowledge of human nature, skill and tact in management, and moderation and prudence in council are unfortunately but too rare at all times, and North Carolina could ill afford to lose the services of her distinguished son, at a period when more than ever she needs these qualities.

I do not enter upon the alledged causes of mistrust and coldness towards the Executive of the University. Those who find fault have each their own especial grievance, no doubt, and it would be wasting time to combat prejudices. But what a pleasant sight it would be, if the State of North Carolina herself would come generously to the rescue, and declare her confidence in her own University, and prove it by making some endeavor to relieve and support it, now in the hour of trial and embarrassment. Place it upon a firmer foundation than ever before, and prove to the world that whatever else was lost in the wreck, the love of letters still burns brightly among us, and the determination still exists to secure to our children the best blessings of a liberal Education.

South Carolina has remodelled her college even now, when all hands are clearing her wreck; has converted it into a University, and is apparently resolved to do more for it than she has ever done. Virginia is rallying round all her various Institutions, and especially her favorite University, and I see her papers are crying out against the pittance received by the Professors. The times are hard, to be sure, they cry, but think of such gentlemen as our Professors receiving only $800. I am positively ashamed to mention what I hear our North Carolina Professors are receiving. I know, however, that nobody has cried out upon it in this State—not even the gentlemen themselves.—They take their pittance in silence, and meanwhile are handsomely entertained with suggestions that they had better leave, and let some new life be infused into the old college.

For myself, Sir, let me say that unless my boys, on their graduation can have attached to their diplomas the well remembered signatures of D. L. SWAIN, a true son of the State, who has proved on all occasions his love for her, and his pride in her honor and welfare—of JAMES PHILLIPS, the staunch old Englishman, inflexible in duty, but whom to know is to love—of M. Fetter, the genial Greek professor whose devotion to "crabbed roots" has never injured his temper, or his looks—and of F. M. Hubbard, the accomplished scholar and elegant writer,—I say unless my two boys come home with all four of these names, at least, upon their diplomas, I shall not feel that they have been properly educated. I unroll my own old sheepskin—now some twelve years old—I look at these names with fond recollection. Alas for Dr. Mitchell! Here is his hand,—and again I see the ample forehead, the musing eye, the genial smile. Sir, I feel towards all these men the reverence and affection of a child. Palsied be my tongue, when it whispers a word to their disadvantage while living, or against their memory, when dead.

In conclusion, let me say, if the day will ever arrive when North Carolina shall deliberately refuse her aid to her own University, and indeed shall say let it go down and cease to be, then it will be time for every man of honor—and spirit who gives her dignity and influence, to withdraw from her borders, and seek a home in some State less thrifty but more thriving; less noted, but more noble. ROANOKE.

Dr. Coolidge.

The Salisbury *Banner* alluding to the death of Lt. Col. Coolidge, who recently died in this city, says:

Poor Coolidge, he was smart and good. He was brave and intelligent, and once on a cruise in "Maryland, my Maryland," he was our friend in need.

He is better known as one of the editors of "Beck's Medical Jurisprudence," a most invaluable work, both in medicine and law. He has been for years one of the most prominent and finest gentlemen connected with the army. His loss is hard to repair.

The late Judge Collamer used to give the following order of business in the United States Senate "First," said the Judge, "have a prayer by the chaplain; next the reading of the journal; then Wilson introduces a bill; then Sumner makes a classical speech; then Fessenden gets mad, and then the Senate adjourns. This order has undergone very little change since Judge Collamer's death. First, paayer; next, reading the journal; then Wilson introduces a bill; then Sumner makes an assault on the President; then somebody proposes to amenk the Constitution, and then the Senate adjourns.

THIS valuable Manure has been before the agricultural public, under one name for twelve years past, and its character for vigor of action and permanence in effect is well established. Before the war, it was introduced, to some extent, in the Southern States, and was found to be highly adapted to

Cotton, Tobacco, and all Crops.

In its action, it is as quick as Peruvian Guano, while it does not leave the land in an exhausted state, but on the other hand permanently improves it. This has been fully proven by years of trial.

LIFE INSURANCE NOTICE.

THE old and well established

Ætna Company, of Hartford,

Offers superior inducements to all who wish to provide for family or friends.

All losses are promptly paid. No case of litigation has ever occurred with this Company. With assetts of $2,300,000, it offers to receive one half of the premium in a note and half in cash, and, after the second year, to credit each customer with the dividends of the Company, which are now 50 per cent. With a small outlay, $5000, or $10,000, or $20,000, may be secured to the family after their earthly providers are taken away. What father or husband would not feel thankful on his dying couch, that he had availed himself of every proper means to place those nearest and dearest to him, above the pinchings of want, and a life of dependence upon friends or charity? 8 819 policies have been issued from the office ending Jan. 15 1866. The total income for the year 1865 was $1,683,339 57; total disbursements $527 805 24, leaving a balance to surplus fund of $1,155,2 4 33.

In Raleigh a large number have liberally responded and promptly acted in this matter; yet many delay, and may wait until it is too late. A man in this city lately left his place of business for his evening meal, well and healthy, but never reached that home except as he was carried there to die. Had that man taken the advice of the Agent, he might have left $5,000 to minister to the necessities of a sorrowing family. Delays are dangerous, procrastination destructive. But one says, "If I only had confidence in the Company that it would pay, I would insure." Well, it never has failed to pay, and to-day is more responsible than ever before. It is patronized by some of the most sagacious minds in the land—men competent to detect and expose any deception if it existed.

AYER'S CATHARTIC PILLS,

Are the most perfect purgative which we are able to produce, or which we think has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character, as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliabilities of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use, and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., and sold by

Williams & Haywood, P. F. Pescud, Raleigh, N. C., and Dealers generally.

DAILY SENTINEL.

Monday, January 29, 1866.

CITY AND STATE ITEMS.

LOCALIZING is rather scarce to-day. Nothing has transpired worthy of public attention.

ADVERTISERS.—Watson's Gallery is doing a good business. He is taking fine pictures and is determined to please.

Mr. Towles is sole agent for Baugh & Son's Phosphate of Lime,—a good fertilizer.

University Trustees.

But little of general interest was done on Saturday in either branch of the Legislature, besides an ineffectual ballot for Trustees of the University. Of the large number of names announced, only two were elected, viz: Luke Blackmer, Esq. of Rowan and Hon. W. N. H. Smith, of Hertford.

We learn that Messrs. Ferebee, Engelhard and Perry who obtained a flattering vote in the Senate were not announced in the House.

Corporation Proceedings.

Special meeting of the Board of Commissioners, held this (Friday) evening, Jan. 26, 1866.

Present—Col. W. H. Harrison, Mayor—Messrs. C. B. Root, D. L. Royster. N. S. Harp, C. M. Farriss, A. Sorrell, P. Overby, R. W. Haywood, H. Mahler and Dr. McKee, Commissioners.

Gen. R. W. Haywood appeared, was qualified and took his seat.

On motion of Mr. Farriss, ordered that the person or persons who has the small pox, in the eastern portion of the city, near the Neville church, be removed to the small pox hospital.

On motion of Mr. Mahler, ordered that the Raleigh and Gaston Rail Road Company be notified to remove the warehouse, erected in the street, near Mr. Litchford's residence, and purchased by the R. & G. R. R. Co.

On motion of Mr. Mahler, ordered that Messrs. J. Hume & Co. be granted auctioneer's license.

On motion, Messrs. Grimes and J. H. Bryan have permission to have their graveyard lots, purchased of Mrs. Stronach, enclosed in the city burying ground.

On motion of Mr. Farriss, a committee was appointed to examine the bake house erected in the rear of Mr. J. B. Sugg's store house, on Wilmington street. The Mayor appointed Messrs. Farriss, Haywood and McKee.

Mr. Farriss, chairman on above committee, reported that they consider it dangerous and unsafe and recommend its removal or immediate disuse, which report was adopted unanimously.

On motion of Mr. Harp, Mr. J. A. Moore's letter, declining to be a candidate for city clerk, which was read at the last meeting, be published, which was agreed to.

RALEIGH, Jan. 23, 1866.

To the Honorable, the Mayor, and Commissioners of the City of Raleigh:

GENTLEMEN:—When, some time since, I consented that my name might be presented to your honorable body, as a candidate for Clerk to the Board, I had no idea of its creating any commotion, either in or out of the board, but expected, after the election of clerk, the simple announcement would be made, that the present incumbent, myself or some other acceptable person, had been elected.

Not wishing the use of my name to be the cause of any further discord or ill feeling, and thanking my friends for their partiality, and begging the pardon of others, who may have taken the matter to heart, I respectfully ask to withdraw my name, that so far as I am concerned, he, who for thirty years has so, faithfully, and, as I learn, almost gratuitously, served you, may be continued in his work of love and mercy.

I am, Gentlemen,
Very respectfully,
Yours, &c.,
J. A. MOORE.

On motion, the Board adjourned.

J. J. CHRSTOPHER, Cl'k.

A few days since a Mr. Lassiter was killed by a Mr. Rose, in Northampton county. The difficulty arose about a light-wood tree, which Lassiter had cut down, and which each party claimed as being on his land. During the altercation Rose took a limb from the tree and struck Lassiter a blow on the head, from which he died. Rose left and has not yet been heard from.

Shad are coming in to this market quite freely at present, and from what we can understand are selling at tolerable fair rates, that is, in proportion to every thing else. They are not quite low enough for our pocket yet, so we have not had that long promised *mess* of these fish which we spoke of in such a sanguine manner some time since.—*Wil. Journal.*

DEER.—Our attention was called to the fact of there being a great many deer in this vicinity, by seeing two gentlemen coming in from a hunt after these animals, and who were fortunate enough to have "bagged" two, a doe and a fawn. To those who are fond of the sport we would say, that there are great prospects of many successful hunts, during the present season in the neighborhood of Wilmington.—*Wil. Journal.*

ATTEMPT AT MURDER.—As Mr. Burriss, a gentleman residing on Federal Point Sound, was on his way home from this place on Wednesday evening last, he was assailed by a negro, about nine miles from town, and ordered to dismount, the negro at the same time presenting a pistol at his head. This gentleman, instead of dismounting, bent his head down in the saddle in order to draw a pistol from his pocket unperceived, but the negro suspecting something of the kind fired at him twice, one ball passing through his hat, and the other through his coat; by this time he had drawn his pistol and fired at the negro, who immediately threw down his pistol and ran; Mr. Burriss then dismounted and picked up the pistol, and while doing so, another negro came out of the bushes, and as if addressing his comrade, inquired "if he had got him." Mr. Burriss then fired at this second negro, who followed the example of the other, taking the same direction as fast as locomotive power could carry him.

No clue has as yet been discovered as to who the would-be-murderers were.—*Wil. Journal.*

VALLANDIGHAM ON THE PRESIDENT.—Mr. Vallandigham, in his speech at the recent 8th of January celebration at Columbus, Ohio, said, in reference to President Johnson, that, "so far as he was endeavoring to secure the immediate restoration of the Union, he was ready to give him a hearty support. On the subject of reconstruction, the President had lately said that his policy was that which led to the end the quickest, and significantly added, 'My baggage is checked through on that line.'"—*Nashville Union.*

The New York correspondent of the London *Times* says Mr. Sumner and his followers are lending their energies to place Mr. Chase in the Presidential chair at the next election, in which case Mr. Sumner will be appointed Minister to England.

HOW TO DRESS WELL.—A friend informs us that he hired a smart colored boy, some time ago, as house servant, and the boy served him faithfully for a very moderate compensation. Our friend was, however, uneasy in mind on one point—the boy dressed much better than his employer, and it was impossible to understand whence the cash came to purchase the fine clothes he wore. Visions of missing table spoons, or something of a similar nature, arose painfully in his disturbed mind, and he determined to question the mysterious colored dandy as to how the thing was done. The question was satisfactorily answered thus: "I plays High-Low-Jack wid a party dat don't onderstand de game like I does."—*Charleston News.*

A DESERVED, IF ILLEGAL, PUNISHMENT.—A notorious scoundrel named Wilson, well knowning this vicinity, as a desperate and most unprincipled character, was shot to-day by parties unknown. He, before day this morning, shot a citizen of this county in the yard of Mr. John Coley, about 9 miles from Goldsboro', named Peacock, and attempted to shoot Mr. Coley himself; but he was fortunate enough to keep out of the way. Wilson was pursued and overtaken in the Northern suburbs of Goldsboro', and some altercation occurring, he was shot and instantly killed.

We are not informed of all the circumstances attending this act of retributive justice; but we do know, that no worse character than Wilson was to be found within the limits of this, or any other county in the State.

A man of violence, and unmitigated villany, he has at last found a violent and merited death.—*Goldsboro News.*

A SUGGESTION.—We respectfully suggest to the citizens of Goldsboro' and vicinity, the propriety of sending a delegation to Raleigh to see General Ruger, with reference to affairs in this county.

A fair and unbiassed statement of recent occurrences in Wayne County, should be made to the highest military authority of the State; and it should be made by men of the first respectability and character.

The reputation which General Ruger has, as a high-toned gentleman, and military officer, would insure to the delegation a respectful hearing and a calm, careful investigation of the subjects of complaint brought to his attention.

Reports prejudicial to this community have been spread, which require prompt and effective denial; and the commanding General should be put in possession of all the facts.—*Goldsboro' News.*

DID NOT WANT TO GO TO THE WARS.—A German, in Texas, who did not want to be forced into the Confederate army, donned a home-spun gown and sun-bonnet, and toiled for two years on his little farm as *his wife's sister*, come to stay with her, from a distance, during her husband's absence in the Confederate army. Another German lay for eighteen months in the cellar of his own house, even his neighbors supposing him in the Confederate army.

The Supreme Court of Tennessee has decided that "Confederate money" is not money, yet the Commissioners of Internal Revenue require every man in the "so-called Confederate States," whose income in 1864 was in "Confederate money," to estimate what income at what the "Confederate money" was worth or estimated at in United States currency.

The schools of Galveston are in a highly prosperous condition. The new Medical College is doing very well, having doubled the number of its students since Christmas.

The Emperor of Brazil has appointed a "Board of Health" to investigate what proprietary remedies should be admitted into the country and what excluded. After some months session they have reported condemning them all except Dr. J. C. AYER & Co.'s preparations. Three of those they recommended the Emperor to admit for the benefit of the public health while they hold the fourth, Cherry Pectoral, under advisement for further information respecting one of its ingredients—morphine, which, while so extensively employed and so highly esteemed as a remedy in this country, is scarcely known in that. Of all the other medicines before them, the Imperial commission say, "no one of them merits any favor whatever, or protection from this Government, as they contain nothing new nor any specific virtues not fully known and used by our own physicians." The Imperial Government has accordingly prohibited them all from admission through the custom house, except the remedies of our distinguished countrymen above mentioned—a discrimination by their learned men, very like that to which experience has led the American people.—*Boston Herald.*

If You are threatened with Pneumonia, read the following from Capt. W. P. Davis of Petersburg, Virginia:

"Sympathy for the suffering prompts me to certify that my servant man was suffering in the last stage of Pneumonia, throwing up matter and blood in large quantities; his case was considered hopeless, so much so, that there was no medical prescription used for his recovery; I regarded him as good as dead. Hearing of the great cures made by the SOUTHERN HEPATIC PILLS, I thought that I would try an experiment on him; without any hope of success however, I gave the Pills in large doses; in a short time, to my great surprise, there was a change for the better. I continued giving them to him until he became a perfectly sound man. He is now attending to his work with as much strength and vigor as he ever did. With his case, and what I have seen and heard of the good effect of these Pills, I do most earnestly recommend them as the best family medicine I have ever seen or used."

THE NEW-YORK TRIBUNE.

1866.

OUR most momentous, arduous struggle having resulted in the triumph of American Nationality, the utter discomfiture and overthrow of Secession and Slavery, *The Tribune*, profoundly rejoicing in this result, will labor to conserve the legitimate fruits of this grand, benignant victory, by rendering Liberty and Opportunity the common heritage of the whole American People now and evermore.

Discountenancing all unmanly exultation over, or needless infliction of pain or privation on, the upholders of the lost cause, it will insist on the earliest possible restoration of the Southern States to their former power and influence in our Union, on the basis of All Rights for All their People.

It will labor in hope to prove that the substitution of Free for Slave Labor must inevitably and universally conduce to the increase of Industry, Thrift, Prosperity and Wealth, so that the South, within the next ten years, must look back amazed on her long persistence in a practice so baleful as the chattelizing of Man.

It will labor for the diffusion of Common School Education, Manufactures, the Useful Arts, &c., &c., throughout the sections hitherto devoid of them, believing that every good end will thereby be subserved and the interest of every useful and worthy class promoted.

It will urge the Protection of Home Industry by discriminating duties on Foreign Products imported, with a view to drawing hither the most capable and skilful artisans of Europe, and the naturalizing on our soil of many branches of production hitherto all but confined to the Old World, while it would strengthen and extend those which have already a foothold among us.

It will give careful attention to progress and improvement in Agriculture, doing its best at once to bring market to the doors of our farmers, and teach them how to make the most of the opportunities thus afforded them.

It will devote constant attention to Markets, especially for Agricultural Products, with intent to save both producer and consumer from being victimized by the speculator and forestaller.

And, giving fair scope to Current Literature, to the proceedings of Congress, and to the general News of the Day, it hopes to retain its old patrons, and attract many new to bear them company.

We rarely employ traveling agents, as so many impostors are habitually prowling in the assumed capacity of soliciters for journals. We prefer that our subscribers shall pay their money to persons they know, and of whose integrity they are assured. Any friend who believes he will do good by increasing the circulation of *The Tribune*, is authorized to solicit and receive subscriptions. Specimen copies will be promptly sent without charge to those requiring them, and we trust many friends will be moved to ask their neighbors and acquaintances to join in making up their clubs.

PROSPECTUS

OF THE

COSMOPOLITE.

ON THE FIRST OF JANUARY WE WILL commence the publication, in the City of Baltimore, of a monthly

Literary Magazine.

There is no publication of this character now issued South of New York City, and the closing of the war has left a large portion of the people of the country with no literary representative.

The COSMOPOLITE will be devoted to

Literature, Art, Reviews, Scientific Papers and General Reading,

and we shall number among its contributors some of the first literary men of the South, with others from the North and from London and Paris.

All matter not original will be carefully selected from the newest and best of the English, French and German publications; and its Editors will spare no efforts or expense to make it rank with the VERY FIRST magazines of the country.

As its name imports, we have established the COSMOPOLITE upon no sectional basis. We hope to make it the organ of general literature alone; and will be uninfluenced by any party, or clique whatever.

It will be mailed to subscribers in any part of the country upon receipt of the following

Subscription:

Single Copies, for one year,	$4 00
Five Copies for one year,	18 00
Ten copies for one year,	33 00

☞ The COSMOPOLITE will be generally distributed among the Merchants and Planters of the South, and we will add, for their information, a few advertisements, at moderate rates.

☞ Liberal deductions will be made to booksellers and newsdealers.

☞ Newspapers publishing this prospectus and sending a marked copy to the undersigned, will receive a copy of the magazine. Address

PROSPECTUS.

THE publication of the

The North Carolina Presbyterian

will be resumed in Fayetteville, on Wednesday, the 2nd of January next.

Confidently relying on the hearty support which we have heretofore received, we shall endeavor to render the paper more attractive, both in appearance and matter, than it has ever been, sparing neither pains or expense in the accomplishment of this purpose.

With the passing away of old things, a new spirit of activity, energy and enterprise, has been infused into every department of secular thought and business. Why should not the Church, also, partake of the progressive advancement? Why should she, of all the agencies brought to bear with such tremendous force upon the civilization of the present time, be inefficient, laggard and almost hopeless in the working out of her own destiny?

To arouse the church to the importance and necessity of work; of unceasing, restless, tireless energy in the service of her Master and Head; this shall be our first and chiefest aim. In this we need assistance. We are not, alone, sufficient for these things. Our brethren must help us in every way; by contributions from the rich own stores of thought and study; by zealous co-operation in a common cause, for the benefit of all; by extending our circulation throughout all our borders, and thus giving us the means and the opportunity of performing well the work to which we have consecrated all that we have, and all we hope for on earth.

CIRCULAR.

TO THE PUBLIC:

The undersigned has now ready for the press a volume, the result of the lucubrations of many years, entitled a "Short Treatise on Chronology in General, and especially on Classical Chronology." The work is not intended to be a chronological chart, nor yet a collection of dates and synchronistic tables. The author's aim has been to prepare a "Horn Book" of Chronology, containing the leading principles, laws and facts of that science.

The FIRST part treats of measuring time and adjusting its various divisions; the SECOND, of fixing dates of historical events and arranging them in order; and the THIRD, of miscellaneous matters important to the chronologist.

UNDER THE FIRST DIVISION are discussed the day, the week, the month, the year and certain cycles used in computing the civil calendar and preparing the Almanac; the origin, history, nature, character, and various sub-divisions of each, especially among the ancients.

UNDER THE SECOND DIVISION the methods of ascertaining the dates or the time when they occurred; the actual dates of some important eras whose epochs are disputed; the most important epochs and eras which have been employed at different times and by different nations, including those which are still in use; and the actual dates of the most prominent events in classical chronology.

UNDER THE THIRD AND LAST DIVISION are considered the epochs and eras of less importance; a sketch of the chronology of India and of China; the principles of the art of mnemotechny as applied to dates, and the different systems of that art which have been propounded.

The author believes that a work successfully executed upon this plan, though it may not contain very much that is new, cannot but be useful and profitable, not only to the reading public, but also to the youth of our country, in the acquisition of classical and historical learning: and HISTORY will be THE STUDY of this age; it must always be the study of thoughtful men in times of revolution and great political changes, such as our country is at present undergoing.

The contributions of North Carolina, and of the Southern States of the Union generally, to American literature, have heretofore been few, and, for the most part, worthless. A few works of fiction and some fugitive poems include our past efforts; and, with the excellent Latin Grammar, and the edition of Cæsar's Commentaries, prepared for the press by Col. Bingham—works the very best of their character which have ever fallen under our observation, and which, under more favorable circumstances, will yet win for their author that high reputation in his profession which he merits—our contributions to USEFUL LITERATURE are of the very humblest character. Under such circumstances this book is, with some confidence, presented for public patronage.

The author proposes to publish by subscription. The cost of publication will be fifteen hundred dollars, or more. The book contains about two hundred and fifty 12 mo. pages. It will be brought out in the best style of one of our best American publishers, as to type, paper and binding. The cost of single copies delivered will be $2.50.

Persons desiring to subscribe can communicate with the undersigned at Raleigh, but subscription lists will be opened at various places of business in Raleigh and other towns in the State. Subscriptions will be required in cash as essential to the success of the enterprise. Editors who will give this Circular a few insertions and forward a copy of their papers containing it to the author, will be furnished with a copy of the book.

The volume will be placed in the hands of the publisher as soon as the author's success is at all assured, and will be issued to subscribers a few weeks thereafter.

HOUSE AND PLATE SAFES.

TO THIS CELEBRATED SAFE was awarded the GOLD MEDAL, at the World's Fair in London, in 1851.

NOTICE.—This celebrated Fire Proof safe is no longer made and sold by SILAS C. HERRING, his license to make and sell them having expired.

The thousands of Certificates from Merchants, Bankers and Mechanics of all trades, that have been given in favor of this the only true "SALAMANDER," renders it useless for the subscribers to multiply words in its favor, as full thirty thousand of "WILDER'S PATENT SALAMANDER SAFES," have been manufactured and sold in the United States; and, in almost every large fire that has taken place during the last seventeen years, these Safes have been subjected to the severest tests, and *not one of the "Genuine Salamanders" has ever been destroyed.*

Safes sold at New York price, with the freight to Wilmington added. No commission charged in Wilmington. We are prepared to take orders for these celebrated Safes. Samples can be seen at our office in a few days.

Every Merchant should have one of these cheap and secure Safes.

Desirable Farm for Sale.

THE PLANTATION SITUATED ABOUT TWO and a half miles from the village of Magnolia on the Wilmington and Weldon R. R., between that place and Kenansville, and known as "Barbacue," is offered for sale. The tract contains 360 acres, 100 of which are cleared and have been under cultivation, producing excellent Corn, Wheat, potatoes, &c. A portion of the land is also well adapted to the culture of cotton. An inexhaustible bed of Marl, a large spring of as good water as can be found in the State, and a never failing stream, running through the center of the cleared land, are among the attractions of the place.

The timbered portion of the land being nearest the Rail Road, and the entire place being easy of access to a first rate market, make it a highly desirable location for growing produce, raising stock and selling timber. Any one having the cash, can procure a bargain by applying immediately to
